FISHERIES INFORMATION SHEET**

LAKE: Maple Lake

COUNTY: Oneida

YEAR: 2016

The Department of Natural Resources surveyed Maple Lake, Oneida County with a boomshocker on May 16, 2016. Maple Lake is a soft water spring lake with a surface area of 144 acres, 2.3 miles of shoreline and a maximum depth of 15 feet. Water level is controlled by a dam with 7 feet of head, and the outlet drains to Townline Lake on Three Lakes Chain. Maple is subject to periodic winterkill and Three Lakes Fish and Wildlife Improvement Association, Inc. runs an aerator during the winter.

Figure 1. Length frequency distribution of 4 Walleye captured during a survey of Maple Lake, Oneida County, May 16 2016.

Largemouth Bass

Largemouth Bass were the primary target of the survey and were the most abundant game species in our catch. We captured 17 Largemouth Bass, and the largest was 19.5 inches.

Figure 3. Length frequency distribution of 7 Northern Pike captured during a survey of Maple, Oneida County, May 16 2016.

Black Crappie

Panfish and nongame fishes were only collected along two reaches of shoreline totalling 0.69 miles. We captured 10 Black Crappie representing a narrow range of sizes from 6 to 7.4 inches.

Figure 4. Length frequency distribution of 10 Black Crappie captured during a survey of Maple Lake, Oneida County, May 16 2016.

Figure 5. Length frequency distribution of 140 Bluegill captured during a survey of Maple Lake, Oneida County, May 16 2016.

Bluegill x Pumpkinseed Hybrids

We captured 18 Bluegill x Pumpkinseed hybrids. These hybrids are commonly encountered in regional lakes. They often show better growth and reach larger sizes than the parent species, although the fish we encountered only ranged from 2.5 to 6.4 inches.

Figure 6. Length frequency distribution of 18 Bluegill x Pumpkinseed hybrids captured during a survey of Maple Lake, Oneida County, May 16 2016.

Figure 7. Length frequency distribution of 10 Yellow Perch captured during a survey of Maple Lake, Oneida County, May 16 2016.

Yellow Perch

We captured 10 Yellow Perch ranging from 3.5 to 7.9 inches in length.

Other Species

We captured 12 varieties of fish in our electrofishing sample of Maple Lake. In addition to the species listed above, we caught 1 muskellunge (41.2 inches), 10 yellow bullhead, 9 pumpkinseed, 2 rock bass and 1 golden shiner.
